

Dear Valued Customer,

Our mop pads are designed to fit perfectly with Swiffer Sweeper (not XL) and Swiffer Sweep & Mop Deluxe mops. The key to a quick and easy installation, often achieved in just 5 seconds, is to utilize the pad's longest side. This side has the most stretch and will allow for the best fit.

Please refer to the simple installation steps shown in the image:

1. Match the long side of the mop pad to the upright mop.
2. Slide one side of the mop pad over the mop head.
3. Stretch the mop pad to the other side for a perfect fit.

By aligning the longer edge first and then stretching, you should find that the pad fits securely and as intended.

We are committed to ensuring you have the best possible experience with our products. If you continue to encounter any difficulties or have further questions, please do not hesitate to reach out to us directly. We're here to help in any way we can.

## Installation Tips

### Step 1

Match the long side of the mop pad to the upright mop.

### Step 2

Slide one side of the mop pad over the mop head.

### Step 3

Stretch the mop pad to the other side for a perfect fit.
